

國立臺北教育大學 101 學年度碩士班招生入學考試

兒童英語教育學系英語教育碩士班 英語教學 科試題

I. Answer the following questions in English. (每題 20 分，共 80 分)

1. Please briefly describe and explain Vygotsky's belief in the relationship between thought and language. Please give one example of how this theory can be used in a language classroom.
2. In most areas of Taiwan, students learn English in elementary schools beginning as early as grade one. Please suggest two effective methods to teaching such young children a foreign language, and explain how and why they might be useful.
3. Think of elementary school Grade 6 students. What are their needs for writing in English? In what ways could you encourage them to practice their writing as much as possible outside class?
4. It has been suggested to use portfolios as an assessment tool. What would be the benefits to you and your students? What would be some of the disadvantages? What would be the difficulties? You might have to describe your teaching context first.

II. Explain the following terms in English. (每小題 5 分，共 20 分)

1. Whole language
2. Silent way
3. Product approach
4. Protocol
